

A Prayer for February 9, 2021

Chaplain Laura Walters Baskett, College Arms Towers and Hugh Ash Manor, DeLand

Loving God, we call upon you today to hear our prayers:

We pray for the sick in this pandemic;

For those waiting to receive vaccines;

For those who watch and see the continued power of this virus to bring us to our knees;

For those who care for the sick and dying;

For those who mourn;

For those who continue to serve us and others;

For increased openness and understanding of those who differ with us;

And for all those whose need for your comfort and peace are great, especially those whom we name before you.

Help us continue to be vigilant, and to take precautions to protect others and ourselves, even though we are tired. Bring us safely through this time and give us hope in the future toward which we are drawn by your love.

Amen.
